

**ANNA STELLA ZUCCONI**  
VISUAL ARTIST

Visual artist working  
across drawing, textile and  
sculpture.

Her practice is rooted in  
hand-drawn imagery and  
expands through material  
experimentation, combining  
gesture, surface and form.

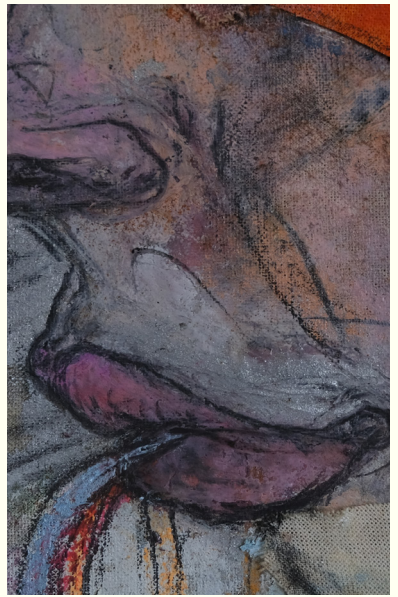

Through a process-led  
approach, her work explores  
transformation, tactility  
and narrative, translating  
drawing into objects and  
spatial compositions.

She develops projects that  
can exist autonomously  
or be integrated into  
collaborative contexts,  
including fashion, editorial  
and spatial interventions.
